Bingo: I teach Spanish to young children and I used these in my spanish camp this past June and the children loved playing (loteria) bingo! The idea is to print the bingo cards and then cut in the middle so that you have two cards per each file, then you can choose to laminate it. All you need then are 9 small objects per child (we just used circle cut outs from paper) to cover each object as you play bingo. I kept it simple and just used my vocabulary sheet to call out the various objects as we played the bingo.

Juliette

Vocabulary: The word list follows the pictures if you go row by row left to right.
